# Lights! Camera! Action!

**Do you want to be famous?** Ever wonder what it would be like to be a Hollywood Celebrity and have your name on the Walk of Fame? This is your chance!

This year at the Business Professionals of America National Leadership Conference, we're shining a light on all our stars, and that means you!

Showcase your chapter, your team or yourself through BPA's very own Walk of Fame at this year's National Leadership Conference. Centrally located in the Grand Plaza outside the Anaheim Convention Center, your Walk of Fame star will shine all week long as we celebrate the accomplishments and successes of everyone who has made it to NLC!

When you're in Tinseltown, posing on the sidewalk next to a star on the Walk of Fame is typical. But how about posing next to a star on the BPA Walk of Fame where it's *your name* on the marquee? It could happen!

State Associations, Chapters, Teams, students, advisors, alumni and parents all have the chance to secure a star on the BPA Walk of Fame in Anaheim.

State Associations and advisors can purchase Walk of Fame stars for themselves, their chapter and their students directly through the Conference Registration System. Parents and alumni can purchase Walk of Fame stars for their children or colleagues online through the NLC HQ website.

**Price: \$75 per star (each star will be 2' x 2' in size and will include a keepsake certificate).**

**Orders will be accepted through March 25, 2019.**

# Competitive Event Guidelines

Contest registration is based on state-level competition results. If your student qualifies for an event, register the student for the event. Students who qualify must be registered for NLC and the event to compete at the national level. The State Advisor determines final contest qualifications.

# National Officers and Elections

## Run for National Office

### National Officer Candidates

BPA needs outstanding student members to share their leadership skills with all members by becoming a National Officer candidate. If your student is interested in serving, and has strong leadership skills, contact your State Advisor. Candidates will be running for a place on the National Officer Team, not for a specific office.

### Prior to NLC

Candidate 100 word statements, answers to specific questions, and optional videos will be posted on the BPA website the Monday before NLC. Once the items are posted on the website and the link given is sent out over the official National BPA's social media platforms, the candidate can announce their candidacy on social media platforms.

### At NLC Election / Voting Procedures

The Policy & Procedures Rule, which states that Head Voting Delegates must attend the Candidate/Head Voting Delegate Briefing Meeting, will be strictly enforced. States not complying will lose all of their votes.

### Candidate/Head Voting Delegate Briefing Meetings for Secondary and Post-secondary Divisions

Date: Wednesday, May 1

Time: 3:00 pm – 4:00 pm

Location: Hilton Anaheim: Pacific Ballroom B

This meeting is required for all Candidates, Campaign Managers, and Head Voting Delegates. General Voting Delegates are invited, but not required to attend. Immediately following the meeting candidates will take the Merit Scholar Test.

Candidates will be introduced at the Opening Session and can immediately begin distributing business cards. Only the candidate and the campaign manager can campaign prior to the rally and may only distribute standard business cards.

Speeches will be given at divisional business meetings. There will be a Campaign Rally during which materials for each National Officer Candidate will be distributed to delegates. Only the candidate and the campaign manager are allowed to campaign. (All campaign materials must be distributed only in the room designated for the Campaign Rally and only during the specified time period except for the business cards by the candidate.)

If needed, based on the number of candidates, a primary election will be held by secret ballot during the Campaign Rally at the time specified in the program. Every student member attending NLC will have an opportunity to cast a ballot during the primary election.

There will be no nominations from the floor. Any violation of the rules will be brought before the NLC Rules Committee. All grievances must be filed using the Grievance Form and following the proper Grievance Policy Guidelines. Any damage charges by the hotel resulting from inappropriate campaigning will be charged to the candidate's state association.

Schedules will be distributed prior to the State Caucuses. The top 10 candidates for each division will have an opportunity to caucus.

The primary election results will be pro-rated based on the number of voting delegates allocated to each state association which is determined by memberships submitted to the National Center by Friday, February 15, 2019. Only designated voting delegates will cast votes in the general election and transact all other business.

Offices will be filled by the six (6) candidates receiving the highest majority votes for the Secondary Division and the four (4) candidates receiving the highest majority votes for the Post-secondary Division. Once the six (6) Secondary officers and the four (4) Post-secondary officers have been elected, a placement committee will slate the officers in a specific office position. Candidates will be interviewed by this committee before placement. Members of the committee will include two (2) Board Members, National Officer Coordinator, Executive Director, one (1) former National Officer, and one (1) Alumni Member.

### Secondary Division Voting Delegates

The number of Secondary Voting Delegates is determined by granting each State Association five (5) votes plus additional votes, based on their paid student memberships received in the National Center Friday, February 15, 2019. Membership dues received after Friday, February 15, if postmarked prior to February 15, and if mailed first class, shall qualify for the February 15 deadline. Additional votes will be determined by multiplying the state student membership total by a factor of .003 and rounding to the nearest whole number.

### Post-secondary Division Voting Delegates

The number of Post-secondary Voting Delegates is determined by granting each State Association three (3) votes plus additional votes, based on their paid student memberships received in the National Center Friday, February 15, 2019. # NLC Volunteer & Internship Programs

## New Program Structure For 2019

Volunteers drive the success behind Business Professionals of America, and we would not accomplish a fraction of the good work that is done without them. Volunteers are especially important to the success of our National Leadership Conference.

After an evaluation of the current Volunteer and Intern Program structures, it was determined that both the NLC Volunteer and Student Intern programs should undergo modification to ensure all involved with the NLC Volunteer and Internship programs have a positive and worthwhile experience.

Business Professionals of America is embracing this unique opportunity to enhance the volunteer experience for all students and educators who participate by now streamlining the initiative and heightening the roles and responsibilities for students and advisors. The modified program structure will not only allow BPA volunteers the opportunity to do more for the time they are participating, it will also offer the National BPA Alumni Division the ability to become more involved and engaged with our National Leadership Conference, as well as with our student and advisor members.

### Purpose of the NLC Volunteer Program

**For the students:** The student volunteer program offers benefits to our organization, to the students, and in some cases, to the community. Volunteer opportunities are a way to develop skills and apply the knowledge learned in coursework. Students also benefit from the “real world” and professional experience that can be gained, which contributes to a student being more competitive when seeking employment after graduation.

**For the Advisors:** Advisor volunteers obtain and provide benefits which may include:

- Overall financial savings to the full membership by keeping conference registration low
- Networking Opportunities
- Stronger engagement and involvement that leads to becoming further invested in BPA

A complete listing of all [NLC Volunteer opportunities](#) are now posted on the [bpa.org](#) website.

### Volunteer Registration

Advisors can [register](#) students for the NLC Volunteer Program while registering their students online for NLC.

Approval in the NLC Volunteer program is granted by the local advisor and confirmed by selecting a volunteer event and submitting the online conference registration. No other approval is required. Please contact Heather Bunning, Director of Marketing & Stakeholder Engagement, at [hbunning@bpa.org](mailto:hbunning@bpa.org) for additional information or questions.

### Purpose of the NLC Internship Program

Following a pilot program conducted the last few years, the new NLC Internship Program will offer experiences to students that are focused specifically on a job/responsibility at NLC. These internships have been developed and structured similarly to that of a company or business internship experience, ones with goals, objective and outcomes for the interns. The program provides a specific outline of expectations, presents hands-on learning and mentorship, in addition to offering specific assignments and outcomes through the entire National Leadership Conference.

The internship experiences available during the National Leadership Conference will provide hands-on learning and mentorship, a behind-the-scenes experience of what is involved with key components of the conference, and a career exploration opportunity that few students have the ability to experience at an early stage of planning for their future.

As we roll out this new Internship Program experience for students, the number of opportunities will be limited, however, students that apply but are not selected to be part of the NLC Internship Program will be assigned to an NLC Volunteer Program initiative to ensure that all students have a chance to be involved.

Each NLC intern will be matched with a BPA Alumni for mentorship, on-site training and real-world learning experiences throughout the conference.

Students interested in learning more about and applying for the [NLC Internship Program](#) opportunities are encouraged to visit the [bpa.org](#) website.

Local advisor approval/sign-off is required for all NLC Internship experiences.

We are excited about the opportunity to work in collaboration with our National BPA Alumni Division to bring a new look and more opportunities to this program for all of our members!

# HOPE begins with you.

## A Student's Guide to Blood Donation

### Why Should I Give Blood?

#### Because you can make a difference!

Almost everyone during their life will know someone who needs a blood transfusion. They may be car accident or trauma victims, cancer or transplant patients, or people with sickle cell disease or other blood disorders. There is no substitute and still only one source of blood for transfusion—volunteer blood donors.

This guide will provide you with information about measures you can take before, during, and after donation for a good experience.

Learning more about blood donation and knowing what to expect should improve your donation experience.

### What Happens During the Blood Donation Process?

#### 1. Registration

- Remember to bring your ID, and if required, the signed parental consent form.
- Bring the names of medications that you are taking.
- Bring a list of the places you have traveled outside the U.S. and Canada in the last 12 months.
- Read the educational materials about donating whole blood or apheresis.
- Ask Red Cross staff if you have questions.

#### 2. Health History and Mini-Physical

- You should feel healthy and well, and meet other criteria.
- We will take your temperature, check your blood count, and measure your blood pressure and pulse.
- We will ask you questions during a private and confidential interview. This protects your health and the safety of patients who receive blood transfusions.

#### 3. Donation

- We will cleanse an area of your arm and insert a needle to draw whole blood.
- You can relax, listen to music, talk to other donors, or read while the blood is collected.
- After the collection, a staff member will remove the needle and place a bandage on your arm.

#### 4. Refreshments

- You should spend 15 minutes or more enjoying refreshments in the refreshment area.
- If you become dizzy or lightheaded, stay in the refreshment area and tell a staff member immediately.

### What Should I Do to Prepare?

#### Before Donation

**Sleep:** Get at least 8 hours of sleep the night before your donation.

**Eat:** Eat a healthy breakfast or lunch—both if your appointment is later in the day.

- Don't skip meals on the day of a donation.
- Make healthy food choices. Eat proteins (lean meat, cheese, and yogurt) or complex carbohydrates (bread, cereal, and fruit).
- Eat a well-balanced diet with plenty of foods that are rich in iron and vitamin C. Iron-rich foods include red meat, fish, poultry, beans, iron-fortified cereals, and raisins.

**Drink:** Drink a few extra glasses of water or fluids in the days before you donate. Start the day with a bottle of water or a glass of orange juice. If you drink water within 10-30 minutes before donation, you may be less likely to experience dizziness and lightheadedness.

#### During Donation

Most people relax during donation and feel fine afterwards. Sometimes it helps to think about something else to distract your attention from the blood being drawn.

You may also be told to try a simple technique to tense and relax the muscles in your legs:

- Lift your legs (one at a time) off the donor bed.
- Hold for a few seconds, then repeat.
- Breathe normally.

If you practice this technique to tense and relax the muscles in your legs during the donation, you may be less likely to have a reaction.

Tell Red Cross staff immediately what you are experiencing, and they will take care of you. There are ways to help prevent or limit discomfort with donation.

#### After Donation

Be sure to sit and relax in the refreshment area for 15 minutes or more and have a drink and a snack. Afterward, drink a few glasses of fluids to stay well-hydrated.

Most donors have uneventful donations and feel good about donating. Some people may experience lightheadedness, dizziness, or an upset stomach that resolves soon after donation. Less commonly, a donor may faint after blood donation. If you feel faint, stop what you are doing and sit or lie down until you feel better.

Call the American Red Cross toll-free number provided to you after your donation if you have questions or concerns.

**American  
Red Cross**

# HOPE begins with you.

## Student Athletes

Student athletes should not do any heavy lifting or vigorous exercise for the rest of the day. You temporarily lose fluid after donation, which your body replaces within 24 hours or sooner if you drink extra fluids. As a precaution, do not donate blood on the same day of a competition or strenuous practice.

After a whole blood donation, your body replaces the red blood cells (the cells that deliver oxygen to muscles and tissues) within about 5 weeks, depending on nutrition and iron status. High-performance competitive athletes may notice a marginal decrease in exercise tolerance for about 1 week after a whole blood donation.

Plan ahead to best schedule your donation with sports and other activities.

## Additional Information for Parents and Students

Parental permission is required for all donations by 16-year-olds and for donations by 17-year-olds as required by state law or sponsor. In order to provide informed consent, parents must go to <https://www.redcrossblood.org/donate-blood/how-to-donate/info-for-student-donors.html> and read "Possible Use of Donor Information and Blood Samples in Medical Research" and the research study sheets for your state. For those with no internet access, please call the Donor and Client Support Center at 1-866-236-3276 for information regarding research studies in your state.

It is recommended that females under the age of 19 not donate Red cell apheresis, also known as "power reds." Red cell apheresis donations are limited to male donors under the age of 19.

When parental consent is required, we will need a signed consent form for each donation. Most donors have uneventful donations and do fine afterwards. Some donors may become lightheaded or dizzy during or after the donation or may faint or experience injury requiring additional medical care. Young, first-time, and low-weight donors are more likely to experience reactions than other donors.

Donating blood, particularly red cells, removes iron from the body. Healthy iron levels are important for overall health, physical and mental development, and help to maintain strength and energy. Low iron, also known as iron deficiency, may lead to health problems, including anemia (not enough red blood cells or hemoglobin). To help replace the iron lost by blood donation, we recommend taking a multivitamin with 18 mg of iron or iron supplement with 18-38 mg of elemental iron for 60 days after each whole blood donation and for 120 days after each red cell apheresis donation.

For more information about iron and healthy blood donation, please visit our website at <http://www.redcrossblood.org/iron>. If a donor chooses to take iron, we recommend that the donor tell their health care provider.

Every donation is tested for HIV (the virus that causes AIDS), the hepatitis B and hepatitis C viruses, and other infectious diseases. If any test result or response to a donor screening question suggests that the donor is disqualified from donating blood in the future or may have an infectious disease, their donor record will be marked accordingly. When required, we report donor information, including test results to health departments and regulatory agencies.

The infectious disease tests are very sensitive and specific, but it is possible that donors who are not infected will have false positive results. We are required to notify and disqualify donors even if subsequent test results indicate a donor is not infected.

Whole blood and red cell apheresis (power red) donors will also be tested for ferritin, a test for iron stores. Donors will be notified of ferritin test results outside our acceptable ranges.

We will communicate test results directly with the donor. We maintain the confidentiality of information we obtain about a donor and we will release a donor's confidential information to his or her parents or guardian only with the donor's consent.

We may use information or residual blood samples we collect from donors confidentially and anonymously for medical research. Examples of this type of research include studies to increase the safety of the blood supply.

If you have questions about blood donation, please contact the American Red Cross.

## Form: Parental Consent for Blood Donation

## Information for Parents

Thank you for allowing your son, daughter, or ward to donate the gift of life. Please read the information below in addition to, "A Student's Guide to Blood Donation", "Possible Use of Donor Information and Blood Samples in Medical Research," and any specific research-related study sheets.

## A Healthy Approach to Donation

Healthy habits can improve the donation experience. Blood donors should eat a nutritious, well-balanced diet containing foods rich in iron and high in vitamin C. Before a blood donation, blood donors should get enough rest, eat a good meal, and drink plenty of fluids. After donating, we recommend that some donors, including donors 16 to 18 years old, take a multivitamin with iron to help replace the iron lost during their blood donation. We hope that a positive donation experience encourages your teen to become a lifelong donor!

## Donor Screening

- We will conduct a confidential interview in which we will ask your son, daughter, or ward questions about his or her health and medication use, sexual behavior, travel, and other risk factors for infectious diseases.
- We will test every donation for HIV (the virus that causes AIDS), hepatitis B and hepatitis C viruses, and other infectious diseases.
- If any test result or response to a donor-screening question suggests that your son or daughter is disqualified from donating blood in the future or may have an infectious disease, we will mark his or her donor record accordingly. When required, we report donor information, including test results, to health departments and regulatory agencies.
- The tests are very sensitive and detect most infections, but it is also possible that donors who are not infected will have falsely positive results. We are required to notify and disqualify donors even if subsequent test results indicate the donor is not infected.
- Whole blood and red cell apheresis (power red) donors will also be tested for ferritin, a test for iron stores. Donors will be notified of ferritin test results outside our acceptable ranges.
- We will communicate test results that disqualify a donor from future donation directly with the donor. We maintain the confidentiality of information we obtain about a donor and we will release a donor's confidential information to his or her parents only with the donor's consent.

## Whole Blood Donation

- Each donation uses a new, sterile needle to collect about a pint of blood from a vein in the donor's arm.
- Most donors feel fine before and after donating blood, but some donors may have a lightheaded or dizzy feeling; an upset stomach; a black and blue mark, redness, or pain where the needle was inserted; fainting or loss of consciousness and injury from related falls; or very rarely, nerve or artery damage. Young, first-time, and low-weight donors are more likely to experience reactions than other donors.
- Iron is lost through blood donations. Low iron, also known as iron deficiency, may lead to health problems, including anemia (not enough red blood cells or hemoglobin). Healthy iron levels are important for overall health, physical and mental development, and maintaining strength and energy. To help replace iron lost through blood donation, we recommend that some donors, including donors 16 to 18 years old, take a multivitamin with 18 mg of iron for 60 days after each whole blood donation or for 120 days after each power red donation.
- For more information about iron and a healthy blood donation, please visit our website at <http://www.redcrossblood.org/iron>. If a donor chooses to take iron, we recommend that the donor tell their health care provider.

## Apheresis

- Apheresis is a type of automated blood donation procedure in which we collect specific components of the donor's blood. We place a new sterile needle in one or both of the donor's arms and use a machine to draw blood and separate it into different parts. The desired blood components are removed while the remainder and extra fluids are returned to the donor.
- Apheresis has the same risks as whole blood donation (see above). In addition, citrate, used during apheresis to prevent blood clotting, may cause chills, tingling sensations, feelings of anxiety, tremors, muscle cramping, numbness, nausea, vomiting, and/or convulsions. Donors may be given oral calcium supplements during the apheresis procedure to manage these symptoms. Very rarely, donors can experience allergic reactions (for example, skin rashes, hives, localized swelling, and/or flushing), air in the bloodstream, infection, or other complications.
- Red cell apheresis, also known as "Power Reds," is used to collect red blood cells. Red cell apheresis is not recommended for 16 and 17 year old females. Red cell apheresis donations are limited to 16 and 17 year old male donors. As with Whole Blood Donation, iron is lost through apheresis donation. See "Whole Blood Donation" for information about iron and iron replacement.
- Apheresis can also be used to collect platelets or plasma. Repeated donation may result in iron depletion. The iron loss in five platelet or plasma apheresis donations is approximately equivalent to the iron loss in one whole blood donation. See "Whole Blood Donation" above for recommendations on iron replacement.

## Research

- We may confidentially and anonymously use the information or leftover blood samples we collect from donors for medical research, such as research on ways to increase the safety of the blood supply.
- By giving your son, daughter, or ward permission to donate blood, you are also consenting to the use of the donation and donor information for this type of research.
- In order for you to provide informed consent, you must go to <https://www.redcrossblood.org/donate-blood/how-to-donate/info-for-student-donors.html> and read "Possible Use of Donor Information and Blood Samples in Medical Research" and the research study sheets for your state before signing this parental consent. If you do not have internet access, please call the Donor and Client Support Center at 1-866-236-3276 for information regarding research studies being performed in your state.
